PUBLIC SCHOOL CAMPING

California's Pilot Project in Outdoor Education

by JAMES MITCHELL CLARKE

"The story of Camp Cuyamaca, scene of San Diego's pilot program, is a fascinating account of the adventures and direct-learning experiences which boys and girls, along with their teachers, can have in a camp situation. As many as thirty activities are described in detail, and are so simply and attractively written that a classroom teacher can visualize how he, or she, might do a comparable job."

—JULIAN W. SMITH, Chief, Health, Physical Education, Recreation, School Camping and Outdoor Instruction, Department of Public Instruction, Lansing, Michigan.

1951. 195 pages. 6 x 9 inches. Foreword by Paul R. Hanna.
LC No. 51-11429. Price, \$3.00 (20% educational discount).

NEW FILMSTRIP ON LIBRARY SCIENCE

The Van Allyn Institute, P.O. Box 227, Burbank, California announces the publication of the filmstrip *"Teaching the Use of the Readers' Guide"* and the accompanying *"Readers' Guide Test,"* produced in the 1951 Summer Session of the Technical High School, Oakland, California, under the direction of Mrs. Maurine S. Hardin, librarian. While the publisher suggests that this excellent filmstrip will be especially valuable in schools which

are inadequately staffed to teach library orientation, every librarian will find it a useful teaching aid.

The publication of *"Teaching the Use of the Readers' Guide"* was announced as a forthcoming audio-visual aid in the October issue of the BULLETIN. Our members will be delighted to know that this filmstrip is now available.

The advertising for the BULLETIN has been carefully selected to give our members a Directory of reliable firms who will take care of almost every professional need of the librarian. In our pages are firms who will furnish a library completely with the finest of modern equipment, others who can fill our book orders for new books in trade editions or prebinds, firms who specialize in finding out-of-print and difficult-to-find editions. There are binderies that can be depended on for excellent work, visual aid centers, and companies who will supply the new plastic mending materials, plastic magazine covers, even stamping machines to put classification numbers on books. In the belief that this Directory will be in constant use by our members for its advertising and in order to make these services quickly accessible, this Advertising Index has been added.

Main reading room, library of the Shawnee Mission High School Library, Merriam, Kansas. The furniture is of Library Bureau's famous Natural Birch. Under-window bookshelves utilize otherwise wasted space. Note

the specially built charging desks (in foreground) with built-in catalog trays. The reference table, for use of encyclopedias, and other large reference books, in right center, is shown in greater detail in the picture below.

You get extra years of service from LB furniture

Built up to a standard, not down to a price, LB library furniture will be both useful and beautiful ten, twenty, or even fifty years from now. Your replacement cost becomes virtually nil. And when you expand your library, Library Bureau can *always* supply you with furniture that will harmonize and inter-

member perfectly with what you have.

For complete details on LB quality furniture, write to your local Remington Rand office. Ask for Catalog LB 403. And when next you need anything for your library, call Remington Rand, let Library Bureau show you the facts for comparison — then *you* decide.

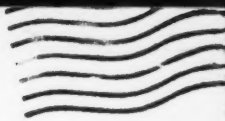

Sturdy reference table for much used reference books, or bulky, hard-to-handle books . . . gives great ease of reference . . . adequate working space and light.
